

WALLACE STATE HANCEVILLE

FOR IMMEDIATE RELEASE

10 June 2009

Free Bio-Botics Camp for High School Students at WSCC, Participants Eligible for \$100 Stipend

HANCEVILLE--Wallace State Community College in Hanceville is offering a free summer camp July 6-10 for high school students interested in robotics and biotechnology.

The Bio-Botics Institute is open to participants age 16-18.

The Robotics portion of the Institute will take place July 6-9. The Biotech portion will be held July 8-10.

Students who complete either the robotics or the biotechnology portion of the camp will receive a \$100 stipend.

This program is funded by a Valley Innovation Alliance grant from the Department of Labor WIRED Project.

Register now. Space is limited.

Call the WSCC Career Coaches office at 352-8402 or 352-8231, or visit www.wallacestate.edu/biobiotics for more information.
